## ABOUT US

Wolverine Products is a family owned & operated American company that began production in Holland MI in 1994. We began manufacturing all-steel spades and shovels and are now known internationally for manufacturing and supplying a broad line of professional grade hand tools.

## QUALITY CONTROL

We at Wolverine Products are obsessed with quality. Each one of our tools must go through a strict regimen of quality check points. One final inspection of every product is done just prior to shipping our orders to ensure its in the best possible condition before it leaves our facility.

## MADE IN THE U.S.A.

Throughout this catalog, look for this symbol to know which of our products are manufactured in-house:

For More info on our company or warranty info, visit: [www.wolverinehandtools.com](http://www.wolverinehandtools.com)

## ABOUT OUR PRODUCTS

Wolverine Products offer the professional contractor superior strength and quality that stands the test of time, eliminating replacement costs. We are recognized internationally for our quality features. Our standard and specialty tools are created using superior materials, such as chromoly steel, aircraft aluminum, pultruded fiberglass, and ash or hickory hardwoods. We sell our products exclusively through wholesale landscape suppliers, garden centers, and local hardware stores. This is because of our commitment to the industry, its professionals, and the fact that these are not ordinary home owner tools.

## WARRANTY INFORMATION

At Wolverine Products, we stand behind our products by extending to the original purchaser a full five year warranty on our line of All-Steel Spades & Shovels and a full one year warranty on the rest of our line. This covers manufacturing defects in materials and workmanship during normal use which normally emerge early in the life of the tool. The life of the tool is often determined by frequency of use and the conditions under which it is used. Frequent, daily use will wear out a tool faster than occasional use. To make a warranty claim: Return the defective tool to where it was purchased including proof of purchase, or call 1.800.787.3562 to speak directly with a Wolverine Products customer team member for resolution.

## IN-HOUSE MANUFACTURING

Design, tooling, and production on many of Wolverine's products are made in-house, and many more are assembled on site to ensure strict quality standards and to keep our economy strong. The end result is a line of products vastly superior to the tools offered by major chain retailers. At Wolverine Products, we make "Tools-Not Toys".

## 5 YEAR WARRANTY

on All-Steel Spades & Shovels  
against manufacturer's defects

The All-Steel Nursery Spades and Shovels are Wolverine's flagship tools.  
Every weld and every piece of steel is from and by the very best.  
Our commitment to quality is unmatched.  
Some say we are ridiculously obsessed with quality.  
Take a closer look for yourself.  
It's not just another spade, it's a Wolverine Spade.

DESCRIPTION

Cap-Rock Shovels are ideal for breaking up dense materials such as clay, coral, rock, and decomposed granite. Their low lift also makes them a perfect shovel for near vertical digging, such as with palm trees. Whatever your needs, we have a Cap-Rock Shovel to meet them.

FEATURES

- Closed back
- Aircraft quality tubing on handle
- Smooth comfortable powder coated steel handles
- Lifetime warranty against manufacturer's defects
- Solid Core Fiberglass handle for extra strength
- Mill sharpened blades creating a razor sharp cutting surface
- Heat treated extra thick blades which will not split like forged blades.

# WHEELBARROWS

Poly

## DESCRIPTION

Wolverine's professional grade line of wheelbarrows are perfect for all your construction, maintenance and landscaping projects. All of the Wolverine wheelbarrows feature heavy duty steel chassis with large tow/tie down hook. Add to that 4 ply knobby tires with precision bearings and Zurk fittings and these are one of the best made wheelbarrows on the market.

## FEATURES (Standard on all wheelbarrows)

- Heavy duty specially formulated ABS tub makes wheelbarrows:
  - Tough, hard & rigid
  - Have very high impact strength
  - Have excellent high and low temperature performance
  - Resistant to cold cracks & practically indestructible
- No wedges under tub for a more solid foundation
- 4 ply knobby tires with precision bearings and Zurk fittings
- Extra Heavy Duty 2-1/8 x 1-5/8" x 60" Varnished North American Ash hardwood handles
- Large tow/tie down hook
- Heavy duty undercarriage and extra heavy duty foot brace & leg where extra support is needed
- Premium hardware kit
- Leg heel for support and stability

### Heavy Duty Crack Resistant Tub

has no wedges under it creating a solid foundation. Our thickest, most rugged tub yet!

### Rugged Wheels

4 ply 6.5" Wide Turf Tires give great stability and leave less ruts on the job site

### Large Tow/Tie Down Hook

**STEEL  
6 CUBIC FOOT**

### WB2009 FLAT-FREE TIRE

Constructed from durable non-porous elastomeric tread & side wall with high density cellular core containing trillions of trapped air cells.

- Proprietary urethane formulation produces flat free tires that push and roll with less effort
- Up to 1000lb load rating
- Perfect balance
- Will not absorb water, crack or dry rot
- Will never mark sidewalk
- Steel rim construction
- Double sealed Semi-precision ball bearing
- Powder coated steel rim with uniformed welds

**ALSO AVAILABLE:**

**Steel  
Handles**

### SHDL (Not pictured) STEEL WHEELBARROW HANDLES

All wheelbarrows come standard with wood handles, however you can substitute steel handles by adding "SH" to the end of each part number below. Steel handles are also available for purchase separately as replacements.

## ALL PURPOSE CART

### DESCRIPTION

Wolverine Carts are constructed to meet the demanding needs of the nursery and landscape professional. Heavy-duty construction combine with versatile features to withstand punishment from dirt, water, and general usage, making our carts unsurpassed in the industry.

# ROPE, WEBBING & TREE SLINGS

## DESCRIPTION

### ROPE

This premium general purpose monofilament rope is strong, lightweight, and spliceable. It is nearly twice as strong as manila and it's smooth surface makes it easier to handle than natural fiber ropes.

### WEBBING

3/4" wide soft Polypropylene (like nylon) material. Strong yet flexible with approximately 1,000 lbs break strength. Will not rot. Olive drab color.

### TREE SLINGS

4ft, 6ft, 8ft, 10ft, 12ft
